

Intended Use

- Medical Purpose** This product is intended to be used for inhaling medication for respiratory disorders.
- Intended User**
- Legally certified medical experts, such as doctor, nurse and therapist
 - Caregiver or patient under the guidance of qualified medical experts

Technical Data

Product Category:	Nebulizers
Product Description:	Ultrasonic Nebulizer
Model:	NE-U780
Rating:	220 - 240 V ~ 50/60 Hz
Power Consumption:	Approx. 85 VA
Fuse:	T1.25 A L250 V
Ultrasonic Frequency:	Approx. 1.63 MHz
Particle size:	**MMAD 4.61um (MMAD = Mass Median Aerodynamic Diameter)
Amount of cooling water:	Approx. 450 ml
Medication cap capacity:	Approx. 150 ml (min. 10 ml)
Sound:	***Less than 40 dB
Nebulization rate:	*Approx. 0.5 ~ 3 ml/min adjustable
Aerosol Output:	**3.04 ml
Aerosol Output Rate:	**0.14 ml/min
Air Volume:	Max. 17 L/min
Dimensions:	Approx. 295 (W) × 219 (H) × 196 (D) mm (main unit only)
Weight:	Approx. 2.5 kg (main unit only)
Package contents:	Main unit, Removable water tank, Medication cup cover, Medication cup holder, Inhalation hose M, Mouthpiece, Medication cup (2 pcs), Power cord, Instruction Manual
Classifications:	Class I (Protection against electric shock), Type BF (Applied part)

Notes: Subject to technical modification without prior notice

- * Representative values from internal data obtained by measuring device operation with 30 ml of saline solution at 26 °C, a room temperature of 23 °C, warm water at 26 °C in the removable water tank, and only inhalation hose M connected.
- ** Measured values reflect internal data obtained by NEXT GENERATION IMPACTOR (NGI), using 30 ml of NaF aqueous solution. Measured by OMRON HEALTHCARE Co., Ltd., according to EN13544-1:2007+A1:2009.
- *** Measured by OMRON HEALTHCARE Co., Ltd.

Note: Performance may vary with medication such as suspensions or high viscosity. See medication supplier's data sheet for further details.

For Professional Use

Innovative and ease of infection control ultrasonic nebulizer designed for professional use

ULTRA *A-I-R* Pro

All for Healthcare

Removable Water Tank for Better Infection Control

OMRON NE-U780 Ultrasonic Nebulizer features a removable water tank that can be submerged in liquid for disinfection and cleaning purposes.

Adjustable Nebulization Rate and Air Flow Volume

Adjustable nebulization rate and air flow volume allow users to customize the amount of aerosol and amount of air flowing into the medication cup cover according to the treatment.

Autoclave-safe attachments

The medication cup cover, inhalation hose, mouthpiece, and inhalation mask (optional) can be disinfected using either an autoclave or sterilizing liquid.

Smooth shape for easy cleaning

The main unit is easy to clean and disinfect by using sheet switches and air pathways that can be easily wiped clean and disinfected.

Audible Alarm

The product warns you with an audible alarm when an error has occurred or when the set time has elapsed. Error LEDs indicate where an error has occurred.

Large, easy-to-see LCD display

The product features a large LCD display that lets you identify timer, air-flow volume, and nebulization volume settings at a glance. A backlight ensures the display is visible in dark locations, too.

Optional Medical Accessories

(within the scope of EC Medical Device Directive 93/42/EEC)

The following optional accessories listed below are available.

Nebulization set Model: NEB-NZU-78E

① + ② + ③ + ④

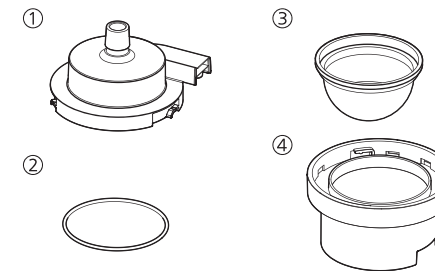

Medication cup cover ①

Medication cup ③

Remarks: For transferring ultrasonic vibrations. (Damage or deformation may prevent nebulization. Handle with care.)

Silicon packing (washer) ②

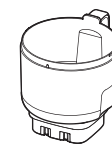

Medication cup holder ④

Removable water tank

Model: NEB-RWT-78E

Remarks: Includes handle cover.

Silicon packing (washer)

Model: NEB-SP-78E

Medication cup

Contents: 5 pcs

Model: U12-1-E

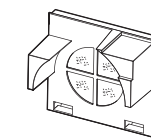

Remarks: For transferring ultrasonic vibrations. (Damage or deformation may prevent nebulization. Handle with care.)

Air Filter set

Model: NEB-AFS-78E

Remarks: Keeps dust and other contaminants out of the airflow.

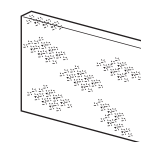

Air Filter

Contents: 5 pcs

Model: U17-4P2-E

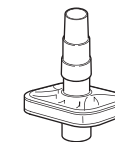

Remarks: Keeps dust and other contaminants out of the airflow.

Bacterial Filter

Model: U17-2-E

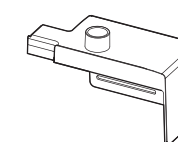

Remarks: Includes adapter. Used for inhalation when cleansing the respiratory tract, etc. Cannot be reused.

Fan cover for bacterial filter

Model: NEB-BFC-78E

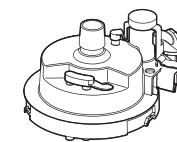

Remarks: Used with the long time nebulization set (NEB-LMCC-78E) when using the bacterial filter (U17-2-E).

Long time Nebulization set

Model: NEB-LMCC-78E

Remarks: Used during continuous nebulization. Used with the supply medication set (U10-11-E).

Supply Medication set

Stainless steel

Model: U10-11-E

Remarks: Supplies medication so as to maintain a constant level in the medication cup. Used during extended humidification and inhalation.

Inhalation mask (S) set

Contents: 3 pcs

Model: NEB-MSISS-78E

Remarks: Includes strap. Allows simultaneous inhalation via mouth and nose.

Inhalation mask (L) set

Contents: 3 pcs

Model: NEB-MSILS-78E

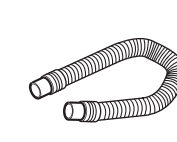

Remarks: Includes strap. Allows simultaneous inhalation via mouth and nose.

Inhalation hose M

Model: NEB-HS-L70E

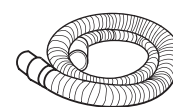

Length: 700 mm

Inhalation hose L

Model: NEB-HS-L15E

Length: 1500 mm

Mouthpiece set

Contents: 5 pcs

Model: NEB-MPSS-78E

Remarks: Is placed in mouth to facilitate inhalation.

Note: All optional accessories are consumables, including when supplied with the main unit.
